Loss, some of which might have licked up property form, in Cherry Valley, with the burning buildings bus some of which might have licked up property form in Cherry Valley, was burned for the welling of Mrs Willers and Cherry Valley, was burned but night a dozen fires in the immediate region of the yards, evidently all of incendiary origin, and some of which might have licked up property representing millions of dollars but for the prompt service of the local fire department, testified to the determination of the lawless element-

struction.
It demonstrated, moreover, that the method, not to say diplomacy, in its madness, a point several raties distant, involving other roads than those of the Stock Yards district and a region where an outbreak had least been expected. Here, almost under the shadow of the gates of Pullman City, it held high carnival, capturing trains, throwing cars off the track and subjecting the crews and escorting deputy marshals to showers of coupling pins, stones and other missiles. A special officer who was compelled to shoot in self-defence, winged two of the mob and temporarily scared their associates; but later the situation became so threatening that, on the request of United States Marshal Arnold, a company of regulars was dispatched to the scene, upon orders from General Miles. GENERAL MILES'S EMPHATIC DENIAL.

Mendacious reports are being scattered broadcast to-night, to the effect that martial law will in all probability be declared in Chicago before daylight; that General Miles has advised the authorities at Washington that such a course is necessary and that the 3d Infantry had been ordered from Fort Snelling, Minn. At 10 p. m.

A RAILWAY STATION BURNED.

At Fifty-eighth-st, is the station of the combined roads. This was fired and soon destroyed. A strong wind was blowing and the flames were quickly spread across three of four tracks which were filled with cars. The railroad people say that there were fifty cars there, forty of which were loaded. All were soon a mass of flames. About thirty of the cars were filled with coal, and the heat was intense. Fifteen contained meat from the big packing houses of Armour, Swift and Nelson Morris. By this time the fire department had been advised of the fires furfered from the big packing houses of Armour, Swift and Nelson Morris. By this time the fire forces there. But on learning of the scrousness of the strained and their fight further northward and came done it their fight further northward a

that the leaders of the mob were mostly foreigners, and as they retraced their steps a few of

the leaders, accompanied by hundreds of others, started off in the direction of the Stock Yards. The mob continued its work of destruction on its march to the stock yards. Both gangs again met at Porty minth and Halsted sis, and continued their march to the yards. The 350 cars in the yards were completely destroyed, and when the crowd reached the stock yards they divided up into small gangs, scattering among the big packing houses. It is feared that the worst is to come, and that the craxed mob will destroy the packing houses in the course of the right.

The 15th Regiment was ordered to the scene as soon as the news of the trouble reached headquarters. Company C was sent to Fifty-first st., as there are a large number of Pullman cars at that point. Other companies were placed at Fifty-eighth-st., Garfield Boulevard and Forty-seventh-st. It is thought that this move-ment will effectually check any attempt of the ctrikers to return and finish their destructive

PROTECTION FOR THE TOWN OF PULLMAN A battalion, under the command of Major Tal-

doned their fight further northward and came to the scene of the conflagration, which promised to be serious.

Upon the approach of the fire and police departments the mob turned about and started for the city. On their way to Forty-seventh-st, they set fire to all the cars they had missed in their hurried trip southward. No water could be obtained near the Garfield Boulevard yards, and the cars are slowly burning up. It was noticed that the leaders of the mob were mostly foreign.

MOR. FURY ARCUSED.

MOB FURY AROUSED. At 10:30 the mob had greatly increased, and bethe leaders, accompanied by hundreds of others, gan tumbling box-cars across the tracks along the lines between Kensington and Pullman. While about tweaty men were engaged in this work four shots were fired into the gang by Detective Stark, employed by one of the railroads. The first shot hit William Insite in the temple. He is not thought to be seriously injured. Another builtet struck Dilly Vanzelline, of No. 1,135 Curtis-ave., in the head, and still another in the back. He is now under the care of four physicians, who pronounce his condition critical. The report from Stark's revolver was the signal for a general rush by the infuriated mob, which quickly gathered from all pursued Stark to the Kensington depot, where fifty Kensington police, who had been called to the scene sensington ponce, who had been called to the scens setzed him, formed a line in front of him, and, after a running fight of a hundred yards or more, succeeded in setting him in a patrol wagon. He was covered with a coat, and part of the mob, thinking the man in the wagon might be one of the injured men of their party, abandoned the chase. In the fight Frank Emils was shot in the side, but was not seriously injured.

fight Frank Emils was shot in the side, but was not seriously injured.

The effect of the incident upon the mob was immediately apparent. A lessening of the crowd at Kensington was noticed, and it was not long before a biaze in the direction of Burnside, a short distance south, accounted for the disappearance of a portion of the mob. At that place 250 cars, some of them loaded, five or six Pullman cars among them, stood on the sidings. These were set on fire and all destroyed. Another part of the mob soon made its appearance at Riverlale, where thirty or forty cars were standing near the icchouses of the Washington Ice Company. These were ignited in a number of places. The fire spread to the sheds and to the icchouses. The cars and sheds were destroyed, but the lechouses were saved from the wreck with considerable loss.

CENTRAL TRAINS STALLED.

Two trains on the Illinois Central, one on the Big Four and one on the Michigan Central, are stailed at Grand Crossing, the track being block-aded by the derailed wild engine and the overaded by the derailed wiid engine and the over-turned freight cars at One-hundred-and-fourteenth-st. The Illinois Central wrecking train could do nothing, as the track was blockaded, and it stood idly by while the cars were being burned. The Fire Department was powerless, as the cars were set on fire in a number of places at the same time, were almost inaccessible, and water was hard to get.

were almost maccessible, and water ages.

A mob of 3,000 men at 10 o'clock this morning also attacked the Illinois Central road at Kensington. In a few minutes box-cars were ren onto the main line, switches were turned and the line was completely blockaded. Officials of the company at once called on the Police Department and General Miles for assistance. A posse of deputy United States marshals fired on the strikers. Two men were shot,
